# PARTNERS GROUP GENERATIONS FUND I

## Monthly report June 2019

### June performance up by 0.7%

- Positive contribution of private equity direct investments Civica and Vishal Mega Mart
- Private equity direct investment Confluent Health closed

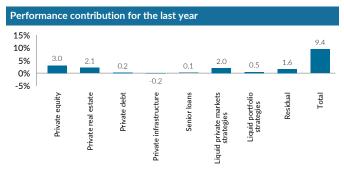

In June, Partners Group Generations Fund I increased by 0.7% and closed with an NAV per share of GBP 1.309. All segments contributed to the positive performance with private equity directs being the main driver, including Civica and Vishal Mega Mart. The carrying value of Civica, a UK-based critical software solutions provider, also increased on the back of solid financial results. For the twelve months ended 31 May 2019, revenue grew by 20.5% year-on-year to GBP 424.8 million. Over the same period, adjusted EBITDA strengthened by 19.1% to GBP 88.4 million, attributable to the continued sales growth as well as the numerous recently completed acquisitions. Partners Group continues to work closely with Civica's management team on developing a revised pricing policy and has identified several areas for additional improvements.

Similarly, Vishal Mega Mart, a leading chain of Indian hypermarkets, reported robust growth in revenue year-on-year. The growth was primarily attributable to the rollout of over 50 new franchisee stores during the financial year taking the total number of stores to over 300, as well as strong same-store sales growth.

From an investment perspective, Partners Group closed the acquisition of Confluent Health. Headquartered in Louisville, Kentucky, Confluent is one of the largest (by number of clinics) independent outpatient physical therapy (PT) service providers in the US, with over 2'000 employees and 198 operating clinics. Confluent Health is considered an attractive investment given its position as a leading PT player in a fragmented market, with the top 15 clinics representing just 12% of total clinics in the US. The company has a successful acquisition track record and proven lead-generation for acquisitions through education services and management's reputation as respected operators. In addition, Confluent is expected to benefit from long-term industry tailwinds driven by an aging population with chronic conditions. This presents an expanding patient pool and opportunity to increase Confluent's scope of practice as PT treatments are significantly cheaper compared to surgery (around 97% lesser), prescription of opioids (85%) and injections (75%). Following the acquisition, Partners Group will work closely with Confluent's management team on opening new locations and driving samestore growth. The company will also continue to execute its M&A strategy through bolt-on acquisitions and selective larger strategic acquisitions.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of the net asset value. In certain circumstances redemptions may also be suspended.
